

EFFECTIVE MATHS CURRICULUM MAP 2021/22

This document is updated at the end of each academic year.
To ensure the programme continually improves the detail of some lessons may change and new lessons may be added to the programme. Therefore the website is always the most up to date reference.

Bridging unit

Year 1

Year 2

Year 3

Year 4

Year 5

Year 6

Year 2	Year 3	Year 4	Year 5	Year 6
[1] Number bonds for 5 and related facts	[1] Number bonds for 5, 6 and 7 and related facts	[1] Add two single digit numbers crossing 10 (eg $8 + 6$)	[1] Add numbers with up to 4 digits	[1] Add whole numbers with more than 4 digits
[2] Number bonds for 6 and related facts	[2] Number bonds for 8, 9 and 10 and related facts	[2] Subtract a single digit number from 11-18 (eg $15 - 6$)	[2] Add numbers with up to 4 digits (more strategies)	[2] Subtract whole numbers with more than 4 digits
[3] Number bonds for 7 and related facts	[3] Number bonds for 20 and related facts	[3] Add a three-digit number and ones	[3] Subtract numbers with up to 4 digits	[3] Solve word problems
[4] Number bonds for 8 and related facts	[4] Add 2 single digit numbers crossing 10 (eg $8 + 6$)	[4] Subtract ones from a three-digit number	[4] Use knowledge of known facts to derive new facts	[4] Multiply a number by a two-digit number
[5] Number bonds for 9 and related facts	[5] Subtract a single digit number from 11-18 (eg $15 - 6$)	[5] Add a three-digit number and tens	[5] Multiply two-digit and three-digit numbers by a one-digit number	[5] Divide numbers with up to 4 digits by a one-digit number
[6] Number bonds for 10 and related facts	[6] Add a 2-digit number and a single digit number (eg $28 + 6$)	[6] Subtract tens from a three-digit number	[6] Use efficient strategies to divide numbers	[6] Use related facts for division and interpret remainders
[7] Add single digit numbers to 10 and related subtraction facts	[7] Subtract a single digit number from a 2-digit number (eg $28 - 9$)	[7] Add a three-digit number and hundreds	[7] Divide three-digit numbers by a one-digit number	[7] Multiply and divide by 10, 100 and 1,000
[8] Add single digit numbers to 10 and related subtraction facts	[8] Add a 2-digit number and tens	[8] Subtract hundreds from a three-digit number		
[9] Add single digit numbers to 11-19	[9] Subtract tens from a 2-digit number	[9] Add numbers with up to three digits		
[10] Subtract single digit numbers from 11-19	[10] Add 2 two-digit numbers	[10] Subtract numbers with up to three digits		
[11] Number bonds for 20	[11] Subtract a 2-digit number from a 2-digit number	[11] 4 and 8 \times tables		
[12] Number bonds for 20 and related facts	[12] $10 \times$ table	[12] 3 \times table		
[13] Problem solving	[13] Division facts linked to $10 \times$ table	[13] Dividing by 4 and 8		
	[14] $5 \times$ table	[14] Dividing by 3		
	[15] Division facts linked to $5 \times$ table			
	[16] $2 \times$ table			
	[17] Division facts linked to $2 \times$ table			

Block 1												
	1	2	3	4	5	6	7	8	9	10	11	12
Y1	Transition unit	Place value (U1)		Calculation (U1)		Calculation (U2)			Review 1	Geometry		Money (U1)

Block 2												
	1	2	3	4	5	6	7	8	9	10	11	12
Y1	Place value (U2)	Calculation (U3)		Calculation (U4)			Review 2	Statistics		Calculation (U5)		Money (U2)

Block 3												
	1	2	3	4	5	6	7	8	9	10	11	12
Y1	Place value (U3)	Calculation (U6) × and ÷		Fractions (U1)	Length, height	Mass and volume	Time	Patterns and relationships	Problem solving	School to determine focus for each class		

The yearly overview is a broad guide to suggested coverage over the course of the academic year.

There are 39 school weeks, one week taken for INSET, leaving 38. Two of the 38 are generally taken up with trips, sports days, concerts and so on, leaving 36. The three 'blocks' are each 12 weeks long. Clearly the 12 weeks don't map directly to terms, they are not intended to. Where the table header has been highlighted in blue, this indicates that planning will be provided by *Effective Maths*. Please see the publication dates (on website) for details of when resources will be online.

Remembering content and making connections

In the 2021/22 block overviews that follow, the intention is to provide extremely clear signposting to the quizzes designed to support children in **remembering the key content they have been taught**. And, through the RTP¹ focuses, **integrate knowledge into larger concepts**. Teachers and leaders need to use assessment well, for example to help children embed and use knowledge fluently or to check understanding and inform teaching. But they also need to do this in a way that **does not create unnecessary burdens for staff or children**. The quizzes are ideal for this purpose. (These points - remembering key content, integrating knowledge and not creating burdens - are directly linked to bullet points 3 and 4 in the 'implementation' section of the current Education Inspection Framework.)

The RTP quiz focuses are linked to what the DfE describe as 'the most important knowledge and understanding within each year group'. These criteria very often require children to have command of a wider domain of knowledge than the mathsquiz.net quizzes do. The quizzes on mathsquiz.net **deliberately** take smaller steps. The aim of **both** is to provide teachers and leaders with several ways of supporting children's ongoing progress. For example, through sharing links for mathsquiz.net quizzes with parents/carers (so children continue to practise a core skill such as knowing the 8 × table) and then following up a child's work at home with a quiz session in school to ascertain progress. The RTP quiz focuses are designed to be mini-assessments carried out in school. Taken together, the quizzes and the paper-based end of unit assessments, provide schools with a range of simple strategies to assess the planned/intended curriculum, as opposed to using generic assessments not linked to the curriculum. In particular, the quizzes have the added advantage of being self-marking, easy to repeat and can be shared with parents/carers to support children's learning at home.

Notes

The quizzes in red are being written for 2021/22 and will be online a few weeks before they are first required.

Some RTP focuses are not best assessed by electronic means. For Y1 this is 1NPV-2 (counting in ones), but skip counting is assessed in 1NF-2. And 1G-2 (compose 2D and 3D shapes from smaller shapes to match an example).

¹ RTP Ready to Progress

Block 1												
	1	2	3	4	5	6	7	8	9	10	11	12
Y1	Transition unit	Place value (U1)		Calculation (U1)		Calculation (U2)			Review 1	Geometry		Money (U1)
	[1] Counting to ten [2] Counting to 20 [3] Ordering numbers from 0-20 [4] One more for numbers from 0-20 [5] One more or less for numbers from 0-20	[1] Reading and writing numbers [a] [2] Reading and writing numbers [b] [3] Reading and writing numbers [c] [4] Counting forwards in twos [a] [5] Counting forwards in twos [b] [6] Counting backwards in twos ☀️MQ [7] Identifying and representing numbers ☀️MQ [8] Comparing and ordering numbers	[1] Number bonds for 5 ☀️MQ [2] Number bonds for 6 ☀️MQ [3] Number bonds for 7 ☀️MQ [4] Solving problems involving number bonds from 5 - 7 [5] Expressing the same addition sentence in different ways [6] Number bonds for 8 ☀️MQ [7] Number bonds for 9 ☀️MQ [8] Number bonds for 10 ☀️MQ [9] Solving problems involving number bonds to 10	There are 5 RTP quizzes linked to this unit, so 3 weeks is allocated. [1] Subtracting from 5 [2] Subtracting from 6 [3] Subtracting from 7 [4] Subtracting from 8 [5] Subtracting from 9 [6] Subtracting from 10 [7] Solving problems with numbers to 10 [8] Number bonds for 4 and 5 and related facts (revision) [9] Number bonds for 6 and 7 and related facts (revision) [10] Number bonds for 8 and 9 and related facts (revision) [11] Number bonds for 10 and related facts (revision) ☀️ RTP 1NF-1← <i>There are 3 RTP quizzes on number bonds to 10 and related facts. It may be worth assessing children at this point – and returning to these assessments again as the year moves on.</i> ☀️ RTP 1AS-2← <i>There are 2 RTP quizzes lined to 1AS-2.</i>					[1] Identifying 3-D shapes [2] Identifying 2-D shapes ☀️RTP 1G-1 [3] Creating 2-D shapes (cutting out and drawing) [4] Shapes around us and patterns with 2-D shapes [5] Patterns with 2-D and 3-D shapes [6] Positions (Eg: front, behind, top, bottom, above, below, near/close, far, around etc) [7] Movements (Eg: forward, backward, up, down, inside, outside) [8] Turns (Eg: whole turn, half turn)	[1] Recognising coins [2] Recognising coins ☀️MQ [3] The value of coins to 10p [4] The value of coins to £2 ☀️MQ [5] Solving problems (addition) [6] Solving problems (subtraction) ☀️MQ		

☀️ indicates a quiz linked to the content of the lesson/s.
☀️MQ means the quiz is accessible via mathsquiz.net

☀️RTP means it is a Ready to Progress quiz. Where a RTP quiz also has a backward arrow symbol, ←, this is to indicate that the RTP focus also encompasses key content from earlier lessons: see RTP page on main website for details.

Block 2												
	1	2	3	4	5	6	7	8	9	10	11	12
Y1	Place value (U2)	Calculation (U3)	Calculation (U4)			Review 2	Statistics		Calculation (U5)	Money (U2)		
	[1] Reading/writing numbers written in numerals and words [2] Counting to and from fifty in steps of one and two [3] Reading/writing numbers to 70 [4] Counting to and from seventy in steps of one and two [5] Identifying and representing numbers [6] Ordering and comparing numbers to 70	[1] Number bonds for ten (revision) [2] Identifying missing numbers [3] Adding to numbers to ten and related subtraction facts (11-15) [4] Adding to numbers to ten and related subtraction facts (11-20) [5] Problem solving linked to adding 1-digit numbers to ten (and related subtraction facts) [6] Problem solving linked to adding 1-digit numbers to ten (and related subtraction facts) [7] Finding the difference	[1] Making 11 in different ways [2] Subtracting from 11 [3] Solving problems (involving addition facts for 11 and related subtraction facts) [4] Making 12 in different ways [5] Subtracting from 12 [6] Solving problems (involving facts for 12 and related subtraction facts) [7] Making 13 in different ways [8] Subtracting from 13 [9] Making 14 in different ways [10] Subtracting from 14 [11] Making 15 in different ways [12] Subtracting from 15 Making 11-15 in different ways and related facts					[1] Sorting shapes [2] Sorting shapes [3] Subsets [4] Combining sets [5] Intersections [6] Block graphs [7] Block graphs [8] Block graphs and bar charts Sorting diagrams	[1] Making 11-15 (revision) [2] Subtracting from 11-15 (revision) [3] Adding single digit numbers to make 16–18 [4] Subtracting from 16-18 [5] Adding single digit numbers to 11-19 [6] Subtracting single digit numbers from 11 to 19 [7] Number bonds for 20 [8] Number bonds for 20 and related facts [9] Number bonds for 20 and related facts (including number bonds with 3 addends) [10] Solving problems - number bonds for 20 (a) [11] Solving problems (b) Making 16-20 in different ways and related facts	[1] Coin recognition (revision) [2] Comparing and ordering coins [3] Adding amounts of money [4] Subtracting amounts of money (a) [5] Subtracting amounts of money (b) [6] Recognising notes		

indicates a quiz linked to the content of the lesson/s.
 MQ means the quiz is accessible via mathsquiz.net

RTP means it is a Ready to Progress quiz. Where a RTP quiz also has a backward arrow symbol, ←, this is to indicate that the RTP focus also encompasses key content from earlier lessons: see RTP page on main website for details.

Remembering content and making connections

In the 2021/22 block overviews that follow, the intention is to provide extremely clear signposting to the quizzes designed to support children in **remembering the key content they have been taught**. And, through the RTP¹ focuses, **integrate knowledge into larger concepts**. Teachers and leaders need to use assessment well, for example to help children embed and use knowledge fluently or to check understanding and inform teaching. But they also need to do this in a way that **does not create unnecessary burdens for staff or children**. The quizzes are ideal for this purpose. (These points - remembering key content, integrating knowledge and not creating burdens - are directly linked to bullet points 3 and 4 in the 'implementation' section of the current Education Inspection Framework.)

The RTP quiz focuses are linked to what the DfE describe as 'the most important knowledge and understanding within each year group'. These criteria very often require children to have command of a wider domain of knowledge than the mathsquiz.net quizzes do. The quizzes on mathsquiz.net **deliberately** take smaller steps. The aim of **both** is to provide teachers and leaders with several ways of supporting children's ongoing progress. For example, through sharing links for mathsquiz.net quizzes with parents/carers (so children continue to practise a core skill such as knowing the $8 \times$ table) and then following up a child's work at home with a quiz session in school to ascertain progress. The RTP quiz focuses are designed to be mini-assessments carried out in school. Taken together, the quizzes and the paper-based end of unit assessments, provide schools with a range of simple strategies to assess the planned/intended curriculum, as opposed to using generic assessments not linked to the curriculum. In particular, the quizzes have the added advantage of being self-marking, easy to repeat and can be shared with parents/carers to support children's learning at home.

Notes

The quizzes in red are being written for 2021/22 and will be online a few weeks before they are first required.

Some RTP focuses are not best assessed by electronic means. For Y2 this is 2AS-2 (recognise subtraction structure of 'difference' - a theme that runs through many lessons.) And also the 3-D parts of 2G-1 (Describe and compare 2D and 3D shapes) although there is a quiz focusing on 2-D shapes.

¹ RTP Ready to Progress

Block 1																																																		
	1	2	3	4	5	6	7	8	9	10	11	12																																						
Y2	Place value (U1)		Addition and subtraction (U1)		Multiplication and division (U1)		Time		Fractions (U1)		Geometry																																							
	[1] Reading and writing numbers to 100 in numerals	[2] Reading and writing numbers to 100 in words	[3] Partitioning	[4] Trading games [a]	[5] Trading games [b]	[6] Identifying and representing numbers ☀️MQ	[7] Comparing and ordering numbers	☀️ RTP 2NF-1← ¹	[1] Number bonds for 20 ☀️MQ	[2] Problem solving involving number bonds for 20	[3] Add a two-digit number and ones (no exchanging) [a]	[4] Add a two-digit number and ones (no exchanging) [b]	[5] Add multiples of ten ☀️MQ	[6] Using 'friendly number pairs' to add	[7] Subtract a two-digit no and ones (no exchanging)	[8] Subtract multiples of ten	[9] Subtract ones from a multiple of ten	[10] Add single digit numbers (making the next ten) ☀️MQ	[11] Subtract a single digit number from 11-20 (making the previous ten) ☀️MQ	[12] Solving problems	[1] Groups and equal groups	[2] 5 × table ☀️MQ	[3] 10 × table ☀️MQ	[4] 2 × table ☀️MQ	[5] Division: sharing by 2	[6] Division: making groups of 2 ☀️MQ	[7] Odd and even numbers	[8] Dividing by 5 ☀️MQ	[9] Dividing by 10 ☀️MQ	Children may be ready for ☀️ RTP 2MD-1← ☀️ RTP 2MD-2← (or do these after U2)	[1] O'clock and half past (revision)	[2] Quarter past	[3] Quarter past and quarter to ☀️MQ	[4] Different ways of saying the time: quarter past 3 = 3:15 ☀️MQ	[5] 5 minutes past and different ways of saying times ☀️MQ	[1] Understanding fractions as equal parts	[2] Halves and quarters	[3] Thirds	[4] Naming fractions ☀️MQ	[5] Comparing and ordering fractions [a]	[6] Comparing and ordering fractions [b]	[7] Finding half ☀️MQ	[1] 2-D shapes ☀️MQ	[2] Drawing 2-D shapes	[3] Symmetry	[4] Moving shapes	[5] Turning shapes	[6] 3-D shapes	[7] 3-D shapes	[8] Revision of unit (You may want to save this for before KS1 SATS.)

¹ RTP 2NF-1 focuses on number bonds and related facts, key skills for future success in Y2. Start + and – U1 reviewing these skills: the lessons are in the Y2 bridging unit.

☀️ indicates a quiz linked to the content of the lesson/s.
 ☀️MQ means the quiz is accessible via mathsquiz.net
 ☀️RTP means it is a Ready to Progress quiz. Where a RTP quiz also has a backward arrow symbol, ←, this is to indicate that the RTP focus also encompasses key content from earlier lessons: see RTP page on main website for details.

The yearly overview is a broad guide to suggested coverage over the course of the academic year.

There are 39 school weeks, one week taken for INSET, leaving 38. Two of the 38 are generally taken up with trips, sports days, concerts and so on, leaving 36. The three 'blocks' are each 12 weeks long. Clearly the 12 weeks don't map directly to terms, they are not intended to. Where the table header has been highlighted in blue, this indicates that planning will be provided by *Effective Maths*. Please see the publication dates (on website) for details of when resources will be online.

Remembering content and making connections

In the 2021/22 block overviews that follow, the intention is to provide extremely clear signposting to the quizzes designed to support children in **remembering the key content they have been taught**. And, through the RTP¹ focuses, **integrate knowledge into larger concepts**. Teachers and leaders need to use assessment well, for example to help children embed and use knowledge fluently or to check understanding and inform teaching. But they also need to do this in a way that **does not create unnecessary burdens for staff or children**. The quizzes are ideal for this purpose. (These points - remembering key content, integrating knowledge and not creating burdens - are directly linked to bullet points 3 and 4 in the 'implementation' section of the current Education Inspection Framework.)

The RTP quiz focuses are linked to what the DfE describe as 'the most important knowledge and understanding within each year group'. These criteria very often require children to have command of a wider domain of knowledge than the mathsquiz.net quizzes do. The quizzes on mathsquiz.net **deliberately** take smaller steps. The aim of **both** is to provide teachers and leaders with several ways of supporting children's ongoing progress. For example, through sharing links for mathsquiz.net quizzes with parents/carers (so children continue to practise a core skill such as knowing the 8 × table) and then following up a child's work at home with a quiz session in school to ascertain progress. The RTP quiz focuses are designed to be mini-assessments carried out in school. Taken together, the quizzes and the paper-based end of unit assessments, provide schools with a range of simple strategies to assess the planned/intended curriculum, as opposed to using generic assessments not linked to the curriculum. In particular, the quizzes have the added advantage of being self-marking, easy to repeat and can be shared with parents/carers to support children's learning at home.

Notes

The quizzes in red are being written for 2021/22 and will be online a few weeks before they are first required.

Some RTP focuses are not best assessed by electronic means. For Y4 these are 4G-1 (translations) and parts of 4G-2 (regular/irregular polygons) but perimeter is assessed in the area/perimeter quiz in the length unit.

	[1] Reading and writing numbers to 1,000,000 [2] Counting forwards and backwards in steps of powers of 10 [3] Making numbers in different ways [4] Partitioning in different ways [a] MQ [5] Partitioning in different ways [b] RTP 5NPV-2 [6] Roman numerals to 500 [7] Roman numerals 1,000 [8] Roman numerals for years	[1] Addition strategies [2] Subtraction strategies [3] Word problems MQ [4] Solving problems with the bar model (a) [5] Solving problems with the bar model (b) [6] Multiplication - using known facts [7] Multiplying 3- and 4-digit numbers by 2-digit numbers [8] Division (revision) Division methods; related facts; remainders MQ [9] Division problems MQ	[1] Calculating amounts of money [2] Solving problems about money [3] Adding decimal numbers [4] Subtracting decimal numbers [5] Solving problems involving decimals MQ Solving problems involving money	[1] Conversion of units of length [2] Converting from kilometres and metres MQ [3] Perimeter of rectilinear shapes [4] Area (a) [5] Area (b) RTP 5G-2	[1] Reading different scales MQ [2] Converting from kilograms to grams and from grams to kilograms [3] Imperial/metric conversion for mass [4] Converting from litres to millilitres and from millilitres to litres RTP 5NPV-5← [5] Solving problems about volume [6] Imperial/metric conversion for volume	[1] Number sequences MQ [2] Stick patterns [3] Tile patterns [4] Stairs on the number grid (a) [5] Stairs on the number grid (b)	If time exists, it is suggested it is used to revisit the Ready to Progress focuses.					

Block 1												
	1	2	3	4	5	6	7	8	9	10	11	12
Y6	Place value (U1)		Addition and subtraction (U1)		Multiplication and division (U1)		Time	Fractions (U1)		Multiplication /division (U2)	Percentages	Geometry
Block 2												
NB: The Y6 arithmetic revision programme becomes available after half term.												
	1	2	3	4	5	6	7	8	9	10	11	12
Y6	Geometry	Money and decimals (U1)		Place value (U2)	Addition and subtraction (U1)		Multiplication and division (U3) Ratio		Fractions	Algebra	Statistics	Measurement
Block 3												
NB: A range of revision lessons become available during Block 2 focusing on problem solving strategies.												
	1	2	3	4	5	6	7	8	9	10	11	12
Y6	Place value (U3)	Calculation		Money and decimals (U2)	School to determine focus							

The yearly overview is a broad guide to suggested coverage over the course of the academic year. There are 39 school weeks, one week taken for INSET, leaving 38. Two of the 38 are generally taken up with trips, sports days, concerts and so on, leaving 36. The three ‘blocks’ are each 12 weeks long. Clearly the 12 weeks don’t map directly to terms, they are not intended to. Where the table header has been highlighted in blue, this indicates that planning will be provided by *Effective Maths*. Please see the publication dates (on website) for details of when resources will be online.

Remembering content and making connections

In the 2021/22 block overviews that follow, the intention is to provide extremely clear signposting to the quizzes designed to support children in **remembering the key content they have been taught**. And, through the RTP¹ focuses, **integrate knowledge into larger concepts**. Teachers and leaders need to use assessment well, for example to help children embed and use knowledge fluently or to check understanding and inform teaching. But they also need to do this in a way that **does not create unnecessary burdens for staff or children**. The quizzes are ideal for this purpose. (These points - remembering key content, integrating knowledge and not creating burdens - are directly linked to bullet points 3 and 4 in the ‘implementation’ section of the current Education Inspection Framework.)

The RTP quiz focuses are linked to what the DfE describe as ‘the most important knowledge and understanding within each year group’. These criteria very often require children to have command of a wider domain of knowledge than the mathsquiz.net quizzes do. The quizzes on mathsquiz.net **deliberately** take smaller steps. The aim of **both** is to provide teachers and leaders with several ways of supporting children’s ongoing progress. For example, through sharing links for mathsquiz.net quizzes with parents/carers (so children continue to practise a core skill such as knowing the 8 × table) and then following up a child’s work at home with a quiz session in school to ascertain progress. The RTP quiz focuses are designed to be mini-assessments carried out in school. Taken together, the quizzes and the paper-based end of unit assessments, provide schools with a range of simple strategies to assess the planned/intended curriculum, as opposed to using generic assessments not linked to the curriculum. In particular, the quizzes have the added advantage of being self-marking, easy to repeat and can be shared with parents/carers to support children’s learning at home.

Notes

The quizzes in red are being written for 2021/22 and will be online a few weeks before they are first required. Some RTP focuses are not best assessed by electronic means. For Y6 this is 6G-1 (draw, compose and decompose shapes).

¹ RTP Ready to Progress

Block 1												
	1	2	3	4	5	6	7	8	9	10	11	12
Y6	Place value (U1)		Addition and subtraction (U1)		Multiplication and division (U1)		Time	Fractions (U1)		Multiplication /division (U2)	Percentages	Geometry
	[1] Reading/writing numbers to 4,000,000 in numerals	[1] Facts for 100; friendly numbers	[1] 7 × table (revision)	[1] Solving problems	[1] Counting in sixths and twelfths	[1] Divisibility rules ☀MQ	[1] Angles - revision [a]					
	[2] Reading/writing numbers to 4,000,000 in words	[2] Facts for 1 and 10	[2] Multiples and factors (revision) ☀MQ	[2] Converting between units of time ☀MQ	[2] Finding fractions of quantities ☀MQ	[2] Solving word problems involving multiplication and division	[2] Angles - revision [b] ☀MQ					
	[3] Place value in numbers up to 4,000,000 ☀RTP 6NPV-2	[3] Single digit number facts and associated problems	[3] Prime numbers, square numbers and cube numbers (revision) ☀MQ	[3] Solving problems	[3] Equivalent fractions ☀MQ	[3] Dividing by a 2-digit number and division problems (dividing using factors and partitioning)	[3] Vertically opposite angles					
	[4] Counting in powers of 10 [a]	[4] Optional lesson on revision of calculation strategies ☀MQ	[4] Efficient strategies for multiplication and solving multiplication problems	[4] Solving problems ☀MQ	[4] Simplifying fractions ☀RTP 6F-1	[4] Dividing by a 2-digit number	[4] Circles ☀MQ					
	[5] Counting in powers of 10 [b]	[5] Magic squares	[5] Efficient strategies for division	[5] Solving problems	[5] Comparing and ordering fractions [a]	[5] Solving problems involving percentages [a]	[5] Solving problem involving circles					
	[6] Identifying numbers using number lines ☀MQ	[6] Missing number addition problems	[6] Reasoning about division ☀MQ	[6] Solving problems	[6] Comparing and ordering fractions [b]	[6] Solving problems involving percentages [b]						
	[7] Comparing and ordering numbers	[7] Missing number subtraction problems ☀MQ	[7] Multiplying a 2-digit number by a 2-digit number (revision)	[7] Solving problems	[7] Comparing and ordering fractions [c] ☀RTP 6F-2	[7] Solving problems involving percentages [b]						
	[8] Rounding to 10, 100, 1,000, 10,000 and 100,000	[8] Missing number problems – number sequence	[8] Solving problems involving multiplying a 2-digit number by a 2-digit number	[8] Solving problems	[8] Comparing fractions using reasoning ☀RTP 6F-3	[8] Solving problems involving percentages [b]						
	[9] Rounding to 100,000, 1,000,000 and 10,000,000	[9] Column addition	[9] Multiplying a 3-digit number by a 2-digit number	[9] Solving problems		[9] Solving problems involving percentages [b]						
		[10] Column subtraction										
		[11] Problem solving										

☀ indicates a quiz linked to the content of the lesson/s.
☀MQ means the quiz is accessible via mathsquiz.net

☀RTP means it is a Ready to Progress quiz. Where a RTP quiz also has a backward arrow symbol, ←, this is to indicate that the RTP focus also encompasses key content from earlier lessons: see RTP page on main website for details.
