

Pupil premium strategy statement – Burlington Junior School

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the outcomes for disadvantaged pupils last academic year.

School overview

Detail	Data
Number of pupils in school	305
Proportion (%) of pupil premium eligible pupils	49.8%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	21 - 24
Date this statement was published	04.12.21
Date on which it will be reviewed	04.12.22/Dec '23/ Dec '24
Statement authorised by	
Pupil premium lead	Mrs Sarah Sanderson
Governor / Trustee lead	Mrs L Grimshaw

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£202,335
Recovery premium funding allocation this academic year	£21,315
Pupil premium (and recovery premium*) funding carried forward from previous years (enter £0 if not applicable) *Recovery premium received in academic year 2021 to 2022 can be carried forward to academic year 2022 to 2023. Recovery premium received in academic year 2022 to 2023 cannot be carried forward to 2023 to 2024.	£0
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£ 223, 650

Part A: Pupil premium strategy plan

Statement of intent

At Burlington Junior School it is our intention that all pupils, irrespective of their background or the challenges they may face, make good progress and achieve their full potential across all subject areas. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already high attainers.

We will consider the challenges faced by vulnerable pupils, such as those who have a social worker and young carers. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

High quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantaged attainment gap and at the same time will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers.

Our strategy is also integral to wider school plans for education recovery following the Covid-19 pandemic – notably in its targeted support through the Academic Mentors programme for pupils whose education has been worst affected, including non-disadvantaged pupils.

Our approach in school will be evidence based and responsive to the common challenges and individual needs, rooted in robust diagnostic assessment. The approaches we have adopted complement each other to help pupils excel. To ensure they are effective we will:

- Ensure that teaching and learning opportunities meet the needs of all pupils
- Act early to intervene at the point need is identified
- Adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
------------------	---------------------

1	Assessments, observations and discussions with pupils indicate underdeveloped oral language skills and vocabulary gap amongst many disadvantaged pupils.
2	Sufficient progress from KS1 in Reading, Writing and Maths
3	Assessments, observations and discussions with pupils indicate that many, but not all, have limited experiences outside of school which inhibits access and engagement with the curriculum.
4	Our attendance data indicates that attendance among disadvantaged pupils is lower than that of their non-disadvantaged peers by around 3%. Persistent absentees for disadvantaged pupils is significantly higher (30.52% in 19/20 and 34.38% in 21-22).
5	Assessments (including Boxall Profile), observations and discussions with pupils and their families indicate that the social and emotional needs of our pupils have been significantly impacted by the Covid-19 restrictions. Pupils need a curriculum which develops social and emotional self-awareness and supports children to manage their feelings and behaviours.

Intended outcomes

This explains the outcomes we are aiming for by the end of our current strategy plan, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improvements in language acquisition and understanding through quality models and experiences leads to greater understanding in Reading.	<ul style="list-style-type: none"> - EoKS2 Reading outcomes will see an overall improvement to achieve at least national. - The difference between PP and Non-PP will diminish at EoKS2 (2018 - -25.4% difference) - Staff will be effectively challenging HA pupils in Reading to further support their development. - Higher ability PP pupils will be achieving GDS in Reading. - LA and SEND pupils will be effectively supported through the use of Phonic sessions and other interventions so that they make at least expected progress from their starting point.
The % of PP pupils achieving ARE combined increases so the difference to national other continues to diminish.	<ul style="list-style-type: none"> - High quality teaching will address children's needs across all curriculum areas. -Talk for Writing will be embedded across the school, consistently. -Writing outcomes for PP pupils across the school will have increased.

	<ul style="list-style-type: none"> -Effective Maths sessions will be embedded across the school. - Maths outcomes for PP pupils will have increased across the school. - EoKS2 combined for PP will have increased. - Difference between combined PP and national others will have continued to diminish.
A curriculum that is ambitious and delivers cultural capital for all pupils, particularly those who are disadvantaged.	<ul style="list-style-type: none"> - 100% of disadvantaged pupils will have attended at least one extra-curricular club or activity. - At least 80% of disadvantaged pupils will have attended at least one cultural enrichment activity organised through school. - 100% of educational trips will have a dedicated secondary focus which augments other areas of the curriculum through enrichment. - EoKS2 writing outcomes will see an overall improvement to at least in line with national.
Pupils have high attendance, come on time to school and are punctual.	<ul style="list-style-type: none"> - Overall attendance for PP pupils will be on an upward trend (94.19% 2018/19) - Persistent absences for PP pupils will have reduced (15.33% 2018/19) - Overall school attendance will have improved to be in line with national.
All children to make progress as they feel supported and their emotional needs are being addressed effectively.	<ul style="list-style-type: none"> - Children will know where they can get emotional support. -Key children are identified by class teachers and referred to the nurture provision in school. - Less behaviour incidents across school due to the support children receive. - Children who are accessing or have accessed the support over the year will be making expected progress from their starting point. - Staff will have evidence of progress in this area through the Boxall profiling. - positive feedback from parents/carers and pupils regarding nurture support

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium) funding this academic year to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £269,506

Activity	Evidence that supports this approach	Challenge number(s) addressed
Training for Staff on Vocabulary and language acquisition	Closing the Vocabulary Gap – Alex Quigley. In their 'Improving Literacy in KS2' (2017) document, the EEF state that the approach to developing vocabulary can be split into two groups: (1) explicit teaching of new vocabulary and (2) exposure to a rich language environment with opportunities to hear and confidently experiment with new words.	1
Reduced class size in Upper KS2	EEF + 3months. This had a positive impact on Y6 last year and due to the high numbers of disadvantaged and pupils with SEMH needs in Y5, and the need for accelerated progress, includes Y5 and y6 this academic year. 22/23 adaptation due to cohort needs - Y6 and Y4 are in reduced class sizes.	2 , 5
Talk for Writing – continued CPD and support for Staff	EEF – Improving Literacy in Key Stage 2 – document states: Teaching writing composition strategies through modelling and supported practice. There is extensive evidence to support this method of teaching and this is part of the Talk for Writing sequence, in which teachers are receiving specific CPD.	2
Whole school CPD linked to Paul Dix 'When the adults	Further develop restorative practice based 30 second interventions.	2, 3, 4, 5

change, everything changes' and 'After the Adults change'.	Further develop an ethos across school where 'deliberate calm, consistent and planned behaviour underpins everything.' (Dix, P:2021)	
Quality first teaching for all CPD	Rosenshine's principles. EEF Special Needs in mainstream schools: — flexible grouping; — cognitive and metacognitive strategies; — explicit instruction; — using technology to support pupils with SEND; and — scaffolding.	2, 3, 4, 5
Continue embedding Effective Maths across the school. Specific focus on Teachers/Support Staff new to school.	Mastery approach to Mathematics. (EEF +5Months) EEF Improving Maths in KS2 and 3 recommendations.	2
Reading read write inc	EEF Phonics + 4 months.	1, 2

Targeted academic support (for example, tutoring, one-to-one support, structured interventions)

Budgeted cost: £

Activity	Evidence that supports this approach	Challenge number(s) addressed
Academic Mentor	The National Tutoring Programme (NTP) is to help support disadvantaged pupils to catch-up on missed learning. One pillar of NTP is the academic mentor programme.	2
Tute – small group tuition.	EEF Small group tuition +4months.	2
Reading 'Catch Up' intervention – Phonics	EEF Phonics + 4 months.	2
Y6 intervention	EEF Small group tuition +4months.	2

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost:£ 28,937

Activity	Evidence that supports this approach	Challenge number(s) addressed
Behaviour Interventions - Identified Behaviour Lead	Paul Dix – When the Adults Change, Everything Changes. EEF – Behaviour interventions +4	2,3,4
Attendance	EEF Attendance report March 2022	4
Breakfast club	EEF Attendance report March 2022	4,5
Social and Emotional Learning – PSA lead	EEF Social and Emotional Learning Interventions +4 months	2,3,4,5
Picture News – wider understanding of the world and to encourage debate about moral and social issues.	Resources tailored for primary with relevant and meaningful links to British Values and supporting pupils personal development.	5,3,1
Hull Children’s university/ in school organised trips – wider opportunities linked Cultural capital	EEF tiered model and menu of approaches: Extracurricular activities, including sports, outdoor activities, arts, culture and trips	5,3,1

Total budgeted cost: £307,041

Part B: Review of the previous academic year

Outcomes for disadvantaged pupils

As this is a 3 year plan, initial assessments following year 1 (and with Covid recovery in mind) show the following:

December 2022:

Attendance:

In 20-21, the attendance of those pupils eligible for PP increased to 94.87%. However, this has since dipped to 91.37% for 21-22 and so remains a high focus for the PP outcomes moving forward. The percentage of PP pupils who were persistent absentees also increased. Further, robust strategies have been implemented to support attendance in school. This has also meant additional support in this area from the school PSA. This has included home visits, phone calls and reasonable adjustments made by school where appropriate.

Language Acquisition:

As the children return to normal learning, following a difficult 2 years, the school have focussed on specific teaching of key vocabulary. This has been through training on Rosenshine's principles and Alex Quigley's 'Closing the Vocabulary Gap'. This continues to be a whole school approach to modelling and sharing good vocabulary. It is also essential in order to help children know more and remember more. This has been evident through book looks with subject leaders and pupils. Children are becoming more confident in using subject specific vocabulary.

% of PP pupils achieving ARE combined increases:

As many of the documentation states, it would not be helpful to compare the end of Key Stage 2 results in July 22 with those of previous years. This is due to the turbulent years that covid has brought to the children.

Following interventions to support the disadvantaged gap, and using school data, the Y6 PP pupils did increase their attainment in Reading more rapidly than their non-disadvantaged peers.

Research by the NFER in their 'The Impact of Covid-19 on Pupil Attainment' report states that the disadvantaged gap is wider 'than any gap resulting from the impact of the pandemic'. It also states that the 'widening appears to have been greater in mathematics than in reading for most

primary year groups'. This does correlate with internal data in school. This has also meant a change in provision and the implementation of the '1st Class at Number' intervention. This is in its early stages at Burlington, but key staff are receiving training and support from the Maths Hub. Assessment regarding this will be reported in the next review.

We continue to use Pixl assessments and intervention tools in order to identify gaps in pupils learning and complete the related therapies to support progress. This, as well as other interventions for PP, forms a significant part of our Pupil Progress Meetings – which take place termly. This is so that we can assess, plan, do and review as quick as possible for the benefit of the pupils.

Social and Emotional Well-being:

Our observations, and discussions with pupils and parents highlights that children do know where they can go for support with their emotional well-being. Key pupils have been identified by teachers and parents, and nurture interventions are in place. There has been a significant improvement in the behaviour incidents in children who access the nurture provision in school. All staff are becoming more familiar with the Boxall profile tool, working with the PSA and SENCO. Analysis of the Boxall assessments has shown that there has been a significant positive impact on the developmental and the diagnostic strands of the profile (on average across the pupils accessing this support). This demonstrates that the work completed as part of Nature Friendly Schools, Power programme and other SEMH interventions – including Jigsaw within the curriculum – is having a positive impact on the emotional well-being of pupils.

Curriculum – Cultural Capital and Diversity:

During the last academic year and following the pandemic restrictions, the school worked hard to return to its wide range of extra-curricular clubs offer. Data kept in school shows that 100% of PP pupils were offered at least one extra-curricular club or activity, and all PP pupils also attended at least one cultural enrichment activity organised through school during the last academic year. Diversity has been a focus for all subject leaders and additional support for teachers has been provided in order to support this across the wider curriculum. Music tuition has returned to face to face lessons and 42% of pupils who access music tuition are PP.

Externally provided programmes

Please include the names of any non-DfE programmes that you used your pupil premium (or recovery premium) to fund in the previous academic year.

Programme	Provider

Service pupil premium funding (optional)

<p><i>For schools that receive this funding, you may wish to provide the following information:</i> How our service pupil premium allocation was spent last academic year</p>
The impact of that spending on service pupil premium eligible pupils

Further information (optional)

Additional Activity:

Our pupil premium strategy will be supplemented by additional activity that is not being funded by pupil premium or recovery premium.

That will include:

- Embedding effective scaffolding for SEND pupils, with a specific focus on the wider curriculum.
- Utilising a DfE grant to train a senior mental health lead. The training we have selected will focus on the training needs identified through the online tool: to further develop our whole school offer for SEMH.
- Offering a wide range of high-quality extracurricular activities to boost wellbeing, STEM learning and aspirations. Disadvantaged pupils will be encouraged to participate.
