TAKEHOME

In the news this week

Long-term bike hire schemes are on the rise. Several companies have launched services, where users can pay a monthly fee to use a high-quality bike or e-bike, with any repairs or upgrades included and if the bike is stolen, a fixed low fee is paid to give the user security. It's not just adults who can join in the long-term bike rental trend. London-based 'Bike Club' is aimed at children aged 4 to 12 and has 55,000 active members across the UK and Germany, where it recently launched.

Things to talk about at home ...

- > Do many people ride bikes around your local area? Do you?
- > What do you believe are the benefits of paying monthly to use a bike? Do you think there are any downsides? Is it something you would like to do?

Should everyone have access to a mode of transport?

Howsham Mill - Year 6

Year 6 had a visit to Howsham Mill, near Malton, this week, which is a renovated mill, now used to generate electricity. The activities included learning about renewable energy, map work around the island, building a working water wheel, viewing the machinery which generated power, learning about the wildlife which lived around the mill and cooking marshmallows over an open fire to make s'mores. The children were also fascinated by the ecological toilet on the site. It was a great day and greatly enhanced our curriculum work we have done.
