TAKEHOME

In the news this week

Wales has reduced its maximum speed limit in residential areas, close to homes and schools, from 30mph to 20mph, becoming the first nation in the UK to introduce these measures. Ministers in Wales have said the 20mph limit would make roads safer, with the aim also being to increase the number of people choosing to walk or cycle. Changing the speed limit, along with the need to raise awareness and amend road signs, has cost the government in Wales just over £32m. However, ministers believe the cost will be outweighed by reduced impact on emergency services and the NHS.

Things to talk about at home ...

- Think about the area outside of your school. Do you feel it is safe? What is in place to make it safe? Do you know what the speed limit is?
- What about where you live? What are the roads like there, and do you think that drivers travel at a safe speed?
