SATs Week - 13th May

Next week is SATs week for Year 6. Please ensure your child is in school by 8:30am as there will be sausage sandwiches or bread buns and juice provided for all of the children in the school hall.

Every child needs to be in school for these tests. If there are any problems then please contact either the class teacher or Mrs Beckett.

Class 5 - Human body

As part of Year 4's science unit on the Human body, they have been making their own poo! The children had various items and objects to replicate the process right from the chewing stage, till the end. It was great fun!

Picture News

In the news this week

A new study from the Journal of Archaeological Method and Theory, using evidence found in northwestern Italy, has found that Neanderthals (an extinct relative of humans) organised their living areas in a similar way to people today. It was thought that Neanderthals' lives weren't as sophisticated as this or as similar to those of modern humans. The researchers looked at sites of both Neanderthals and Homo sapiens and compared how things like tools and animal bones were positioned in the living area. They found Neanderthals organised their items depending on the different tasks and activities they were doing.

Things to talk about at home ...

- > Share your response to the new research findings about Neanderthals' lives.
- > How is your home organised? Do you have different areas for different activities?
- > Think about how organised or tidy people at your home or school are. Is everyone the same?

Please note any interesting thoughts or comments

Share your thoughts and read the opinions of others

This weeks useful vocabulary

Conduct – To organise and carry out. The researchers conducting their excavations in a former Neanderthal living area in northern Italy.

Sophisticated – Complex or advanced. It was thought that Neanderthals' lives weren't as sophisticated as this or as similar to those of modern humans.

Homo sapiens – The species that all modern humans belong to. The researcher's looked at sites of both Neanderthals and Homo sapiens.

Journal – A serious newspaper or magazine that deals with a specialised subject. A new study from the Journal of Archaeological Method and Theory, using evidence found in north western Italy, has found that Neanderthals (an extinct relative of humans) organised their living areas in a similar way to people today.

Reconstruction – A model, impression, or re-enactment of something from the past. It shows a reconstruction of the first Dutch Neanderthal, nicknamed Krijn.

Findings – Information discovered as part of research or an investigation. Read the information ... about the new Neanderthal research and its findings.

Parent/Carer Coffee Morning

Date: Wednesday 22nd May 2024

Time: 09.00 – 10.00am

Location: Burlington Junior School

We are running a joint coffee morning with Burlington Junior and Burlington Infant School. This is an opportunity for parents/carers to meet the MHST team, find out more about the East Riding MHST service, and seek support/advice around emotional wellbeing.

We look forward to
meeting you!

Parent Workshop

Communication: Exploring Behaviour and Emotions

Date: Wednesday 12th June 2024.

Time: 9.00-11.00am

Location: Burlington Junior School

This workshop covers:

How to recognise different types of behaviour to understand what your child may be communicating. How to respond to behavioural communication to decrease stress and increase safety.

MHST Resources
and support

Please bring a spoon!

Aims and Objectives:

Build a greater understanding of behavioural communication, the different types of behaviours children and young people display and develop a tool kit to respond to their communication.

Please speak to your school
reception to book a place.
